

Customer synthesis enquiry

Do you require a reference substance for your analytics at short notice, or a compound for your research projects? Are they commercially not available, or do you have a bottleneck in your research laboratory?

If you look for a reliable, competitive and efficient partner for chemistry outsourcing, do not hesitate to contact us. We take a client oriented approach to determine and deliver the most effective solution to support your chemistry research and development efforts.

Fill in the structure of the desired compound in the form below, and send your enquiry by fax to +41 (0)34 424 03 12. We will submit you a suitable offer!

Structure of desired compound
